LETTER FROM PRESIDENT FINLEY.

SOUTHERN RAILWAY COMPANY.

Office of the President.

Washington, D. C., Oct. 1, 1908.

To the Editor of the Alexandria Gazette:

Dear Sir: In their replies to my letter of July 31st, 1908, on the subject of diversification of southern agriculture and industries, some of the editors to whom it was sent asked me to write to them from time to time on matters of interest to the people of our section.

This has led me to take the liberty of addressing you on the topic of importance to all our people and especially to the farmers of the south.

It is the aim of this company to not merely produce abundant crops, but its products must be put where they can be sold. By whatever means of transportation they may be ultimately carried before they reach the final consumer, our farm products move primarily over the country highway, and the condition of the road leading from the farm to the shipping point or to a near by consuming center, such as a manufacturing town, affects materially the profits of the farmer and the value of the farm.

The condition of the road controls the size of the load that can be hauled over it and the speed at which it can be carried. An improvement by which the farmer is enabled to carry, with the same vehicle and the same team, a load seventy-five or one hundred per cent heavier, will result in a substantial saving in his time and in the wear and tear of his vehicles and teams.

The construction of good roads leading from a market town has practically the same effect as bringing the farms nearer to town. It extends by several miles in every direction the area of territory in which farmers can profitably engage in market gardening and dairying. That this is true has been effectively demonstrated in those localities in the southern states and in other sections of the country where road improvements have been carried out intelligently and systematically.

That to the farmer of hauling his products over poor roads is not always appreciated, for the reason that it is rare that a farmer pays for having his hauling done. The United States Department of Agriculture has made an investigation of this matter, however, and the results show the cost for cotton, for instance, to be an average rate of twenty-seven cents per ton per mile for an average haul of 11.8 miles. That road improvement would materially reduce this cost is shown by the following striking statement in the Year Book of the Agricultural Department for 1906:

"If it were possible to increase the average weight of a wagonload of cotton in the United States from three bales, as it now is, to four bales, without increasing the cost of hauling the load, the saving on a crop equal to the one picked in 1905 would amount to \$2,000,000; and if the average load of wheat, now 55 bushels, were increased by 20 bushels, the saving effected in hauling a crop like that of 1905 would be more than \$3,000,000."

In addition to what may be termed the commercial aspect of good roads they have a highly important social aspect as well. They bring the farmer into closer touch with the world at large. He and his family are not forced to remain at home for days at a time because the condition of the roads may make traveling unpleasant if not difficult. Good roads insure efficient and prompt rural mail deliveries, placing the newspaper on the table of the farmer early on the day of its publication, enabling him to transact much of his business by mail and to take advantage of early information as to fluctuations in the prices of his farm products. Good roads mean that the farmer and the members of his family can enjoy to a greater degree the society of their neighbors and friends in the town and country. They mean that his children can be more regular in school attendance and can receive to a greater degree the advantages of education. They mean the bringing closer together of the town and country, with advantages on both sides, for as the farmer is benefited by being brought into closer touch with the town, so all the business interests of the town prosper as the result of the facility with which the farmer and his family can do shopping. Good roads also benefit the inhabitants of towns and cities by affording facilities for pleasant country drives. They invite the business man to the establishment of country and suburban homes, such as he can enjoy only when he is assured that the condition of the roads will be such as to enable him to reach his place of business promptly in all kinds of weather.

I think it may truthfully be said that there are few matters of such general importance to all the people of any community as the provision of good roads, and I believe, therefore, that all of us who have the progress and prosperity of the South at heart should do all in our power to aid in the creation of a public opinion favorable to road improvement. The system that should be adopted in any locality is one on which it would not be proper for me to tender advice, even if I were qualified to do so. It is necessarily a matter that can best be determined by the people directly interested and who are acquainted with the peculiar needs and

Correspondence of the Alexandria Gazette.
Washington, Oct. 2.

Assistant Secretary of the Navy Newberry will proceed about the middle of November on his annual tour of inspection of the southern navy yards and stations, including Guantanamo, and San Juan. He will be accompanied by a number of bureau chiefs. The president's yacht Mayflower has been ordered to take his party on this trip.

A delegation of prominent citizens of Greensboro, N. C., have just arrived today to attend the North Carolina Peace Congress, which will be held at Guilford Court House, October 11 to 17. The president expressed his regrets at not being able to attend.

In the tuberculosis congress today speeches were made by Drs. Townsend, Barnes, Jackson, Danton, Hutchinson, Kellogg, Storey, Wilbur, Chapin and Guilford.

Col. Wm. F. Stewart, appeared today for the third time before the medical officers of the Hall retiring board for examination. Lieut. Col. Arthur who is supervising the examination, expects to finish this part tomorrow.

The coming of Chairman Hitchcock of the republican national committee to consult with the President is an open question. Mr. Hitchcock did not appear today, and reports from New York indicate that he may have decided to defer his call until a later date. The recent letter of Joseph Daniels, of the democratic publicity bureau, inquiring why the Department of Justice hasn't proceeded against certain alleged illegal corporations, is to be given immediate attention by the Attorney General.

Virginia News.

Rev. W. E. Callender, of Lanens, S. C., has accepted the call of the Episcopal Church at Falls Church and at Langley.

The Merchants and Miners' Transportation Company's steamer Krahaw backed into a transfer barge in Norfolk harbor yesterday and cut the barge in two. The Krahaw was slightly damaged.

It is again reported that Lieutenant Governor J. Taylor Elyson, of Virginia, will be a democratic candidate for governor. If he enters the contest for the head of the state ticket, Delegate James R. Oston, of this city, will have a clear field for lieutenant governor.

According to a report current in Norfolk, Col. Thomas J. Nottingham, of the Fourth Regiment, Virginia Volunteer Infantry, has resigned his command on account of differences with his superior officer in the State's military organization.

William B. Rayner, whose antics in Norfolk Wednesday night led to his being locked up while arrangements could be made for him at the Sarah Leigh Hospital, was taken back to Baltimore last night by his father, Senator Rayner, who was accompanied by Dr. Bevan and George A. Fos, secretary to the Senator. Senator Rayner yesterday visited the Sarah Leigh Hospital, where his son was kept Monday night. The meeting there of father and son was friendly.

WARRANT FOR THOMAS.

The first intimation that direct proof had been secured of the man who fired the shot which seriously, if not fatally, wounded N. W. Gregory, at Arvonis, Buckingham county, Va., last Saturday, was made known in Richmond yesterday, when news from the seat of the trouble with the Thomas-Zimmerman gang of outlaws brought the information that a warrant has been sworn out for William Thomas, charging him with the crime.

Acting in compliance with orders from Governor Seaman, Commonwealth Attorney Edward W. Hubbard yesterday directed Sheriff Williams to summon 80 men, break them into squads of 20, and to proceed at once against the outlaw camp.

News from Arvonis is to the effect that a warrant has been sworn out for William Thomas, one of the outlaws, charging him with shooting N. W. Gregory, on Saturday night.

A telegram from Arvonis late yesterday afternoon stated that the newspaper correspondents have been ordered out of the town. There is a rumor that they are to be shot on sight. The reason for the threat is believed to have resulted from the publication of the plans and movements of the outlaws as well as the citizens, and the timidity of the reporters in plunging into the fastnesses of the outlaws.

The situation has been intensified by the reports of last night that Charles Newton had been shot at Paynes Station by his brother-in-law, Benjamin Zimmerman, alleged leader of the outlaw gang.

MR. BRYAN.

Declaring that every disinterested voter knows that large contributions have been used to secure mortgages upon officials, William J. Bryan last night issued a statement criticizing the adoption by Mr. E. Taft, of President Roosevelt's announced view on the subject of the publicity of campaign contributions.

Mr. Taft, says Mr. Bryan, "makes the same charge the president does—the astounding charge that the voters are so liable to be misled that the knowledge (as to the amounts and sources of campaign contributions) must be kept from them. Mr. Bryan adds: "I insist that this is an insult to the intelligence of the voter and it does little credit to Mr. Taft's judgment of them, to the men whom he is making his appeal," and says it is the right of the people to know before the election who are contributing so that they may draw their own inferences as to the effect they may have on the candidate.

News of the Day.

At democratic national headquarters in Chicago yesterday, an itemized statement was made public showing that campaign contributions from newspapers to date have reached a total of \$84,994.

Governor Haskell has made public an appeal to the people of Oklahoma for money to aid him in overcoming his enemies, who, he declares, are the enemies of the people.

Col. Gabriel Thomas Barbee is dead at the home of his son-in-law, H. H. Johnson, in Romney, W. Va., aged twenty-four years. He was a native of Rappahannock county, Va.

Director of the Mint Lewis announces that he will this week resume the purchase of fine silver for subsidiary coinage. He states that he expects to purchase about 125,000 ounces each week for an indefinite period.

That Richard Croker, the former Tammany leader, will come to New York shortly after the election, is the announcement made by his son, Richard, Jr., on his arrival from Europe yesterday.

Suffering from severe burns about his face and body as the result of playing with matches in the yard of his home, Harry Shoul, the four-year-old son of Mr. John Shoul, 253 Old York road, near Baltimore, is in a serious condition at St. Joseph's Hospital.

While Mrs. Marie A. P. Smith, of Washington was walking between Twenty-first and Twenty-second streets, on P street, last night, a steel-headed bag, containing 5 cents and a check for \$15 was snatched from her hand by a negro.

Six boys are reported killed at Sugar Ridge, near Toledo, Ohio, when a freight train on the Toledo and Ohio Central Railroad crashed into a heavily laden excursion train returning from the fair at Bowling Green. It is reported that every one in the rear passenger coach either was killed or injured.

Two lives were lost and twenty or more persons were injured at Spencer, N. C., last night by the explosion of a powder storage house in the yards of the Southern Railway Company, and most of the buildings on the premises were damaged either by the explosion or by fire.

According to advices received at El Paso, Tex., County Judge Brewster and Postmaster M. A. Ernst, of Bogalusa, La., were waylaid and shot on Sunday while en route from the cable house at Ernst's mine to the postoffice. Ernst died on Tuesday. His murderers have not been arrested.

The democratic state convention of Massachusetts yesterday nominated a State ticket for the November election, chose 16 presidential electors and adopted a set of resolutions, the main plank of which advocate tariff, labor and State administration reforms. J. H. Vasey, of Watertown, was nominated for governor, and Charles J. Barlow, of Melrose, for lieutenant-governor.

The thirty-fourth annual convention of the American Bankers' Association came to an end at Denver yesterday afternoon with the election of George M. Reynolds, of Chicago, as president, and Lewis E. Pinson, of New York, as first vice-president. The convention placed itself squarely on record as against both guarantee of bank deposits and postal savings banks.

Michael Hepper, a saloon-keeper, 601 south Bond street, Baltimore, was arrested before Judge Stockbridge yesterday in the Criminal Court on the charge of violating the Sunday liquor law and was convicted. Judge Stockbridge announced that in addition to revoking Hepper's license he would impose a fine of \$800 and costs. The fine was later reduced to \$750.

At the residence of Grover O. Hook, west Washington street, Hagerstown, Md., Monday night, a shot was fired through a window in the bedroom in which Mrs. Hook was lying seriously ill. The bullet was imbedded in the left just over Mrs. Hook's bed. Twice during the past week the Hook home has been entered by a strange man, evidently bent on robbery, but both times he escaped before the officers arrived.

Harry S. Everett, the 13-year-old son of Michael Everett, living on William Collins' farm, near Chesterwood, Md., was run over by his father's farm wagon and instantly killed yesterday. The boy had been to town after a load of fertilizer and was returning when the board of the wagon fell out, throwing him between the horses' feet and the wagon pole. The wheels of the wagon passed over the boy's head, crushing the skull and breaking the jaw.

Because his son Richard refused to give him money which he demanded, John Burkhardt, 66 years old, yesterday shot and seriously wounded the younger man, then drank carbolide acid and jumped from a window of his home at Union Hill, N. J., in an effort to end his life. While father and son were being rushed to a hospital in an ambulance the old man sprang upon the wounded boy and attempted to strangle him. He fell dead just as the ambulance reached the hospital. Young Burkhardt probably will recover.

A sensation involving four girls, two of them students of James Milliken University, Birmingham, Illinois, and one of them a daughter of the principal of one of the leading schools of Macco county, was sprung yesterday, when warrants were sworn out for their arrest, charging them with malicious mischief by which a street car was wrecked. The girls attended a picnic near Decatur, and on their way home released one of the cars on a gravelly road, allowing it to run back several feet. Another car, bearing a load of people bound for the park, dashed into it, wrecking the car and breaking the leg of one of the passengers.

To Be Tried Separately.

New York, Oct. 2.—Captain Peter O. Hains and his brother, T. Jenkins Hains, will be tried separately for the killing of Wm. E. Annis. District Attorney Darrin of Queens county is today preparing to ask the grand jury now in session for an indictment against T. Jenkins Hains on the charge of being an accessory before the fact. It is planned to place him on trial first, about November 9.

The charge of murder made against Captain Peter O. Hains, U. S. A., and his brother T. Jenkins, for the killing of Wm. E. Annis at the Bayside Yacht Club two months ago, came up today before a special grand jury in Queens county. District Attorney Darrin will elicit first degree indictments.

Today's Telegraphic News.

Mack Attacks Sheldon.

New York, Oct. 2.—Attack by the democrats upon the corporation affiliations of George R. Sheldon, republican national treasurer, who is a candidate recently when it was learned that his record was being investigated for Bryan, really began today when Norman E. Mack, democratic national chairman, issued the following statement:

"The trust and corporation affiliations of George R. Sheldon, treasurer of the republican national committee, for the past ten years, makes interesting reading, in view of the recent developments in the campaign. I wish to recall in this connection that because of these associations, former Governor Odell, in 1902, refused to permit the party leaders to put Sheldon in nomination for the lieutenant governorship of New York."

"While the republican party has refused to endorse Sheldon for public office, he has been selected as campaign collector for the identical reasons which make him unavailable as a candidate."

"President E. C. Overell has defended Sheldon and invited Mr. Du Pont to get out."

"Mr. Du Pont was only identified with one trust, while Mr. Sheldon is at the present time intimately identified with no less than 17 corporations. One of these, the Bethlehem Steel Company, does not employ union labor and has opposed the organization of its employees for the past 16 years. Mr. Sheldon is a director of that company."

"Sheldon is also treasurer and director of the North American Company, capitalized for \$30,000,000, a concern known as 'the mystery of Wall Street.' It is but a few years back since he was prominently identified with the 'whiskey trust.'"

Accompanying Mr. Mack's statement was a record since 1898, year by year, of Sheldon's corporation affiliations. Of these concerns he appears as a director of the majority, treasurer of many, and as vice president in some.

The American Fleet at Manila.

Manila, Oct. 2.—The American fleet passed Corrigidor at the entrance to Manila bay at noon today. An escort of scores of various craft met the fleet outside the harbor. While the official welcome to the fleet has been postponed on account of cholera, thousands gathered on the shore to witness the entrance of the mighty ships and cheered themselves hoarse. There will be a water party on route from the cable house at Ernst's mine to the postoffice.

The official time of the arrival of the fleet was given as three o'clock. There is an utter absence of fear of cholera among the men, and nothing would suit them more than to be permitted shore leave.

Tokio, Oct. 2.—Baron and Baroness Salto gave an elaborate dinner tonight in honor of the wives and daughters of the officers of the American fleet, who are awaiting the arrival of the fleet in Japanese waters.

The Tokio stock market was stronger today than it has been in a year, owing to the publication of optimistic stories regarding the future relations between Japan and America.

Affairs in Persia.

Tehran, Oct. 2.—All hopes for relief from revolutionary outbreaks in Persia by means of the new parliament, which will convene November 4, was dispelled today when the text of the proclamation calling the parliament was read by the people. Instead of the desire for grant of powers to the deputies, the parliament will be conducted along the same restricted lines, and no relief is promised from the ills that have thrown the country into turmoil.

The Azerbaijan province, in which Tabriz is situated, is excluded from participation in the assembly until the revolution that has raged there for months is put down.

Break in the Entente Cordiale.

London, Oct. 2.—A serious break in the entente cordiale between Whitehall and the American Embassy at England, and Henry White, his colleague at Paris, is rumored in the American colony here. The story, in an indefinite form, has been going the rounds for some time, but today it became tangible in the report that Ambassador White looks with covetous eyes on the post at the court of St. James. Mr. Reid is loath to yield his post as ambassador, and it is reported that he fears a change will be made with the incoming administration in America and that Mr. White will succeed him.

Bride Under Guard.

New York, October 2.—With her mother and her father's business associate, I. N. Rambo, standing guard, Mrs. Russell Thomas, who was Silvia Speer, a million-dollar heiress of Atlanta, was at the Hotel Astor today while her chauffeur-husband is speeding north to regain the bride who was torn from him in the shadow of the altar. Following a long-distance telephone conversation with millionaire Speer in Atlanta, Mrs. Speer and her daughter today left the Hotel Astor for unknown parts. A. K. Rambo, who is still there, will give no indication as to their destination.

Young Woman Defies Court.

Laurens, S. C., Oct. 2.—In an effort to save the life of her father, J. Henry Garrison, who is being tried for killing J. Louis Williams, Miss Mary Garrison openly defied the court by tearing up one of her letters offered by the prosecution as evidence and handed to her on the witness stand. Miss Garrison sacrificed herself further for her father by telling a story of the cause of the killing of her fiancé that strongly supports the defense of "unwritten law" advanced by her father's counsel.

Firemen Crusaded to Death.

Youngstown, Ohio, Oct. 2.—Firemen today recovered from the ruins of a four story building on Federal street the bodies of Thomas O'Reilly, first assistant fire chief, and Chas. Vaughan, fire captain, who met death last night. Vaughan, with a dozen other firemen, were fighting the blaze from the roof of the burning building when it crashed into the basement. All but O'Reilly and Vaughan were rescued after heroic work by their comrades. The loss is about \$100,000.

Democratic Prospects.

Lincoln, Neb., Oct. 2.—The reports at hand assert that the tour of the middle west by Judge Taft has not made the inroads into the Bryan movement that had been claimed by the republicans. Governor Burke, who is a candidate for re-election in North Dakota, is authority for the statement that so far as that state is concerned the Bryan movement has gained rather than lost ground through Judge Taft's visit.

In Minnesota, according to national Committeeman Lynch, the speech against the guarantee of bank deposits made by Judge Taft aided the democratic chances.

Fairview was struck by heavy winds early today and considerable damage was done. The big tent used by the newspaper men was demolished, and new quarters will have to be provided for them.

Bryan will take the stump against Hughes in New York during the last week of the campaign.

Excitement in Amoy.

Amoy, Oct. 2.—Alarmed by the report of Chinese agitators that the American fleet when it visits the local port the latter part of October will seize the city and make it the base of operations in a coming war with Japan, hundreds of Chinese have fled the city for safety. Police are arresting the agitators, the punishment for each being 1,500 lashes on the back. The situation finally became so serious that the authorities had to prevent those leaving the city from carrying their baggage with them.

Panic at a Fire.

Chicago, Oct. 2.—Women and children were driven in terror to the street and many broke rescuees were made during a fire which destroyed a flat building on the north side early today. The basement was occupied as a livery barn and 16 horses were burned. Three firemen were seriously injured. During the fire one woman became so excited that she threw her baby down two flights of steps. A fireman caught the infant.

Receiver Appointed.

New York, Oct. 2.—Following close upon the failure of three east side private banking institutions, a receiver has been appointed to examine the affairs of the bank of Edward Rosenfeld, 888 East Houston street and today throngs of excited aliens are gathered in front of the building shrieking threats and hurling epithets at the bankrupt. About \$80,000 of the savings of the poor is involved.

Hungry School Children.

Chicago, Oct. 2.—What can be lawfully done to help the fifteen thousand school children who daily go hungry, is a problem which is absorbing the attention of the members of the board of education today. Whether lunch counters shall be put in the schools or whether some other means of providing them with nourishment must be found is what the school board is trying to solve. Over five thousand pupils daily go to school without breakfast and ten thousand are constantly hungry.

Possibilities of Wireless Telegraphy.

London, Oct. 2.—The acceptance of Dr. Lee de Forest's wireless telephony apparatus by the British admiralty, at a time in which conversations were carried on between persons on ships fifty miles apart and steaming at full speed, has strengthened the American inventor's conviction that he will yet be able to talk to America from the station which he will establish on the top of Eiffel Tower in Paris.

YOUNG ELKINS SETTLES SUIT.

State Senator Fred O. Blane, and William E. Baker, attorneys for Blane Elkins, and his father, Senator Stephen B. Elkins, in the breach of promise suit brought against Blane Elkins by Miss Ada Louise Lonsdale, of New York, yesterday authorized the following statement:

"Letters from the plaintiff to Judge Dayton and the press show conclusively she did not want the suit brought and that the affidavit, without precedent in such a suit, so widely published was procured according to her statement by misrepresentation. Local attorneys for Miss Lonsdale, who claim that she dropped the suit only after a settlement was made, say that they will file a claim for an attorney's fees. From another source it is learned that the suit has been settled and that Miss Lonsdale is now on her way to Paris. The terms of settlement, it is said, are that Miss Lonsdale will be paid \$50 a week for the remainder of her life, which is equal to a lump sum of \$50,000. All her debts have been paid, it is reported, and included in the alleged settlement is the trip abroad, which she is now enjoying, with all expenses paid, together with those of a woman traveling companion.

SCHOOL BOARD.

At the regular meeting of the City School Board held last night there were present Capt. Herbert Bryant, chairman; Messrs. Stabler, Ramsey, Bradshaw, Tompkins, Carter, Dr. Smith and the Superintendent.

Mr. Stabler reported that no work of importance had been done since the last meeting; the stairway at Academy building had been completed and everything was in shape in the buildings.

Some bills for repairs and supplies were ordered to be paid.

The superintendent reported that the schools had been in operation since September 14; 604 white boys and 682 white girls had been enrolled but that more had secured permits; the exact enrollment of the colored schools had not been furnished.

To transmit to the schools and at the request of Examiner Maphia, who would be present on the occasion, the superintendent stated that he had ordered a teachers' institute to be held in Washington building on October 16, from 9 a. m. until 4 p. m., and he invited the members of the board to be present.

The superintendent stated that Principal Parker and the teachers of the colored boys' school had raised money enough to purchase carpenter's tools and proposed introducing manual training in their schools, not, however, to interfere with the regular routine of study. The plan was approved by the board.

The superintendent also reported that he had visited all the schools during the month and that they were in working order.

The clerk reported that Mr. DeW. Althauson was the lowest bidder for hard coal and wood and Mr. T. J. Fannon for Cumberland coal and was instructed to award the contracts for furnishing fuel for the year to them.

A communication from the teachers of Washington and Lee schools asking to be furnished with sets of text books and also globes and maps was referred to the committee on studies and discipline.

The chairman turned over to the clerk a receipt from the city treasurer for the money received from the Southern Railway Company for rent of Peabody building.

Dr. Smith, from the committee on the new school building, reported that good progress was being made on that building; the work was progressing satisfactorily both to the city engineer and to the committee; the walls were heavy and well constructed and good material was being used; the contractors, Leigh & Bro. were fine, honest men, with whom the committee were well satisfied and that they expected the building would be completed by the last of January. He said if a cornerstone were to be laid the building was now ready for it, if the board so wished, the laying of the cornerstone could be done by the Masons.

The building committee was thereupon requested to make arrangements for having the cornerstone laid with Masonic honors and to invite Alexandria-Washington Lodge to officiate at the ceremony.

The board then adjourned.

INSTANTLY KILLED.

Mrs. Ella A. Hall, wife of Mr. M. D. Hall, superintendent of public schools in Fairfax county and private secretary to Representative O. C. Carlin, of the Eighth Virginia district, was struck by a northbound Chesapeake and Ohio train at Burke's station, about 16 miles south of Alexandria, shortly after 2 o'clock yesterday afternoon and instantly killed. Mrs. Hall was a Miss Coffey and was born near the scene of the accident. Besides her husband, she is survived by a daughter and son. It is reported Mrs. Hall left her home about 2 o'clock to go to a rural delivery mail box about a quarter of a mile away. To reach the box she had to cross the Southern Railway tracks, which at that point are used by the Chesapeake and Ohio Railway. It is said trains approaching from either direction can be seen several hundred yards from where Mrs. Hall was killed, and it is presumed she saw the train, miscalculated the speed at which it was traveling and attempted to cross in front of it. Mrs. Hall had recently returned from a sanitarium, where she had been under medical treatment. Mr. Hall was at Fairfax courthouse when he was apprised of the accident by telephone. The funeral services will be conducted by the Rev. Mr. Bradford, pastor of the Baptist Church at Burke's station, and interment will be made in the old Coffey burial plot at Burke's at 2 o'clock this afternoon.

ANNOUNCED CHINAMAN.

Jane Lucas, a colored boy, was arrested yesterday by Officers Garvey and Talbot for annoying a Chinaman who conducts a laundry on the northeast corner of Prince and St. Asaph streets. The officers also took into custody Wm. A. McDowell, Lewis Williams and Peter Sims, three colored men, charged with disorderly conduct. The complainant appeared in the Police Court this morning accompanied by a friend from the land of Confucius who acted as his interpreter. The former gave his version of the affair in the language of Li Hung Chang which his friend interpreted sufficiently plain for the court to understand that the boy was wont to annoy the celestial by throwing missiles, some in the nature of fish, into the laundry; that when the offender repeated the trick yesterday morning the proprietor ran him down and was in the act of detaining him until the arrival of an officer when McDowell, Williams and Sims appeared on the scene and attempted to rescue the boy. Justice Eaton fined the prisoners \$2.50 each.

THE YACHT ALFORETTA.

A well known colored barber who will buy anything from a pug dog to a "chessman" is in trouble. He bought the yacht Alforetta and hired a carpenter to do some repair work on the craft. The carpenter was in the habit of leaving the shop on 1375 cents at 5 p. m. on the job which the barber thought was well underway. He took an inventory of his expenses yesterday and found they amounted to \$17.50. He told the workman he would have to look at his book before he paid out any more money. When he went to the place where the boat was he found that nothing had been done. He immediately hired another mechanic, paying him \$5.

BRIDEGROOM IN JAIL.

Among the prisoners before Justice Eaton in the Police Court this morning was a young colored man who gave his name as George Sharkey, who was charged with being drunk and disorderly and with begging on the street. He had been arrested by Officer Talbot. It appeared from the evidence that yesterday his exchequer had run down to three cents, and he was attempting to negotiate a loan of two cents in order to buy a glass of beer when he was taken in custody. Sharkey in his statement said he was a Baltimorean and had been married in Washington on Wednesday. He was fined \$5, and not having the necessary wherewithal he will spend the next twenty days of his honeymoon on the chain gang.

NEW STEAMER.

The Southland, the latest addition to the fleet of steamers operated by the Norfolk and Washington Steamboat Company, will be launched from the ways of the Newport News Shipbuilding and Drydock Company, on Saturday afternoon at 2:30 o'clock. The contract price of the Southland was \$400,000. The contract calls for a speed of sixteen knots an hour, and the vessel will have cabin accommodations for about 200 passengers. The launching of the Southland will be witnessed by a party of officials and guests of the Norfolk and Washington Steamboat Company from Washington.

FOUGHT THE OFFICER.

Thomas Brown, who said he was a native of Baltimore, appeared in the western section of the city yesterday in a drunken condition, and was about to solicit alms at a residence when Officer Ferguson took him in custody. The officer placed the prisoner in a wagon and after it had started in the direction of the station house Brown attacked Mr. Ferguson, fighting him all the way to the lockup. The officer was finally compelled to use his stick on the prisoner. The latter was fined \$5 in the Police Court this morning.

JACKSON COUNCIL JR. O. U. A. M.

The regular meeting of James W. Jackson Council, Jr. O. U. A. M., was held last night and was quite enthusiastic, one of the prominent features of the meeting being the endorsement by the council of a petition to be presented to the City Council at its next meeting against the employment of foreigners on street improvements. The members were warmed up in favor of it and it will be circulated. On October 15 Jackson Council will give a class initiation.

Balfour, of Maryland, are expected to speak.

TO WORK SIX DAYS.

What will be hailed with delight by the employees of the Southern Railway shops in this city is the posted notice that on and after tomorrow they will work 6 days in each week and 8 hours a day. As will be remembered the shops during the major part of the summer only worked 4 days of 8 hours each. A short time ago it was increased to five days and now it is six days each week.

STILL IN BUSINESS.

Mr. John Riley, the retiring member of the firm of Riley and Spinks, has bought the saloon privilege of Mr. Chas. Outts, of 114 north Fairfax street, and will on Monday next open a first class restaurant. Mr. Riley is a popular young man and there is no doubt that his ventures will be a success. As far as the property and location are concerned he could have selected no better.

VERDICT FOR PLAINTIFF.

In the Circuit Court of Alexandria county yesterday, Judge J. B. Thornton presiding, the jury awarded the plaintiff \$100 in the suit of Luther Carter against Mrs. Virginia R. Simpson, to recover \$500 as a commission claimed for the sale of certain property. Court then adjourned for 14 days.

BABY DEAD.

From the trials and tribulations of a cold and headless world death last night took the little baby left at the residence of Mrs. William Wade some time ago by a woman named Brent, who lives in Orange county. The infant had been sick ever since the headless mother left it and though Mrs. Wade has done all that she could, and Drs. Moore and Gorman furnished the best medical aid, it was the decree of Providence that the little one should go. No one is more sorrowful than Mrs. Wade, who had become very much attached to it.

INCENSED AT MARKET MASTER.

This morning Market Master Lyles approached Mr. Edward Taylor and informed him that it was against the law for any trays containing merchandise to be exhibited in front of benches in the market. He ordered him to take them in. Mr. Taylor obeyed but later on the advice of his father placed them out again. It is a good order on the part of the market master and, if it is law, should be enforced, falling alike on all, for it is a well known fact that it is hard to walk through the market on account of these obstructions on busy days.

FUNERAL.

The funeral of the late William H. Hantmon took place this afternoon from the residence of his son, Mr. Charles Hantmon, 227 north Royal street. The services were conducted by Rev. J. W. The deceased was a brother of Mrs. Davis, widow of Rev. Mr. Davis, and of the late Mrs. Bull and the late John Hunter.

MORE COOL WEATHER.

The wind yesterday was from the south and the temperature mild. After dark, however, the heavens became cloudy and rain followed. Later a brisk northerly wind set in and clearing and cooler conditions prevailed. The mercury this morning stood at 44°. The steamer Washington, from Norfolk, arrived at this port this morning about an hour late on account of the head winds encountered in the bay and river.

Economy is a funny thing sometimes. The way some people work it is a joke good enough for "Puck." They will buy inferior managers at a cent or two a pound cheaper, when Aunt's sausages are really worth twice as much. How they can figure on saving at that rate I can't explain. Can you? The latter part of this month a similar meeting will be held when Rev. L. Humphreys, pastor of the Methodist Protestant Church, will make the address.

Elected!

This is a momentous period in the history of this country—two great parties battling for political supremacy. This is true in no greater degree with pertinence with business houses and many times in the bustle and hurrah incident to increasing trade one is apt to represent an article 100 per cent better than it really is. It has been said that "a word to the wise is sufficient," but our experience has taught us that the bulk of the people buying goods today cannot be led by deceptive methods—they have to be shown. We want to say to you that any goods we place our stamp of approval on are just as we represent them. A trial order of any brand we advertise will prove what we say to be true. We want to submit for your consideration this week a few of our medium grades of Whiskies, which we guaranteed will give satisfaction.

GIRL TELLS OF OBSESSIVE.

A horrible story of mistreatment after she had been spirited away from her home in Jamaica, L. I., was told by 16-year-old Lena Thorne, when she was rescued early yesterday by police from a filthy hotel in East New York where she declares she had been held a prisoner for six weeks. Bayfield Sussu, who occupied the house where the girl was found, and Annie Carlo, who is charged by the girl with having aided in keeping her a prisoner, have been arrested. Sussu is charged with abduction, criminal assault, assault, keeping a disorderly house and resisting an officer. Annie Carlo is charged with aiding in kidnapping the girl.

Lena Thorne has told the police that she was grossly abused during her captivity. Her clothing was taken from her and she was dressed in rags, she said; was frequently beaten, was not given sufficient food and was constantly threatened with death if she sought to escape. The girl's appearance and physical condition when she was taken to the Children's Society in Brooklyn yesterday seemed to sustain her story.

Best Treatment for a Burn.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unequalled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by W. F. Craighead & Co. and Richard Gibson.

BULLDOG ATTACKS SHERIFF.

Deputy Sheriff Long went to Downsville, Washington county, Md., to arrest Norman Bowers, a youth, wanted on the charge of stealing a bicycle belonging to Alex. Williams, of Hagerstown. Bowers was located at the home of Augustus Izor, but he resisted arrest when the officer attempted to take him in charge. During the struggle between the officer and Bowers Deputy Long was attacked by a bulldog and he was forced to release the prisoner in order to protect himself from the brute. During the excitement Deputy Long's arms, body and legs were lacerated by the dog's teeth and claws, and his clothes were badly torn. While the officer was contending with the dog Bowers made his escape.

A Travelling Man's Experience.

"I must tell you my experience on an east bound O. & N. E. R. train from Pendleton, La Grande, Ore., writes Sam A. Garber, a well known traveling man. 'I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and with a death-like look on her face. Two or three ladies were working with her and giving her whisky. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into La Grande, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into La Grande she was all right, and I received the thanks of every passenger in the car.' For sale by W. F. Craighead & Co., and Richard Gibson.
